

The DAILY HERALD has nearly DOUBLE the Circulation of either contemporary paper published in Los Angeles. As an advertising medium it is consequently of DOUBLE their value.

THE Constitutional Convention of Pennsylvania closed its session on the 3d inst., and an election will be held on the 15th proximo, to vote for or against its adoption.

A number of radical changes in the direction of reforms, have been incorporated in the new Constitution for the Keystone State. One provision intended to restore popular elections to their former purity is that the officers of elections shall number the ballots as they are received and placed in the ballot box, and the same number which is placed on the ballot must be recorded opposite the name of the person voting the same. Electors may, if they choose, also write or have their names written on the back of their ballots. Another provision is that any candidate who may be guilty of any fraud on the election law, shall be forever disqualified from holding any office of trust or profit.

Another conservative provision concerning legislation, requires that a bill shall be read on three different days before its final passage, and the vote upon its passage must be taken by yeas and nays, to be entered on the journal; and to pass a bill, a majority of all the members of the House not of a quorum must vote in the affirmative.

Provision is also made to limit and in a good measure prevent special legislation. The judicial officers are to be elected, but the term of office has been generally lengthened. The Supreme Court Judges' term being twenty-one, instead of fifteen years, as at present.

The October election has been transferred to November, and in the years of Presidential elections, takes place on the same day.

The pardoning power has been placed in a Board of Pardons, the board to be composed of the Governor and four State officers.

It (the HERALD) has been treated with decided partiality by the citizens of Los Angeles, who were deceived by its size, neat typographical appearance, and pretensions but sometimes valueless telegrams.—[World.]

Inasmuch as the HERALD telegrams contain all that the World publishes, verbatim, and a large number of words in addition, this may be considered a compliment to the journal; but we are inclined to doubt it.

The HERALD's cue was really to have caught itself metaphorically by the slack of its breeches and to thus have lifted itself over any such obstacle as truth.—[World.]

It is pleasant to find an editor following his own advice, and in so close connection. The article from which the above is taken is a startling example.

Iowa went Republican by a majority reduced from 55,000 to 21,000. Vale, the Farmers' candidate for Governor, carried his own Congressional District, wherein the Republicans had a majority of 2,000 last year. He will be sent to Congress in place of McCary next fall.

MINNESOTA elected the Independent Farmers' candidate for State Treasurer, and probably the Farmers' candidate for Secretary of State. Ten Independent against ten Republicans are elected to the Senate.

The HERALD has not sufficient sprightliness to make its impertinence enjoyable.—[World.]

That is not what is the matter with the World. It has too much impertinence to let its sprightliness peep out.

Major Truman has put on the war paint thick and red.—[World.]

Add a beech-clout and leggings, and you have an enjoyable picture.

A dispatch from St. Johns says the cable steamer Robert Low was lost in St. Marys bay on Wednesday morning. The chief officer and two boats' crews were saved, but the captains and two other boats were missing. The tug St. Cabot has been dispatched to assist the steamer.

NEW YORK, Nov. 24.—Michael Harold, keeper of a restaurant on Broome street, was stabbed to death last night, in his saloon, by Pierre Stefano, while endeavoring to stop a quarrel between the latter and one Sargent Paoli. The murderer was arrested.

John D. Warrington, partner of Ingersoll, known as the "Ring Chair-maker," and jointly indicted with him for forgery in endorsing a warrant for \$15,000, has been arrested.

Sheriff Brannan says Tweed will not be removed to the penitentiary to-day, and when he does go he may be allowed any conveyance he desires at his own expense. Tweed spent most of his time this morning reading papers, writing letters to his wife and chatting with his son and the Sheriff.

Proceedings in the contempt case of counsel for Tweed is postponed till Saturday, at request of counsel, to give time to prepare a reply to the Judge's address. To-day the Judge solemnly berated counsel for presenting him with a paper which charged him with being disqualified from sitting on the trial, owing to an opinion formed and expressed, with others, on commissions and omissions, and on the trial of Jas. H. Ingersoll and John D. Farrington, for forgery in the third degree, was begun this morning before Justice Davis.

The charge is that they forged an endorsement of Heath & Smith to a country warrant, for money, etc., on the new court house, for \$15,138.

Harry Gent, Assemblyman elect, indicted for false pretenses and grand larceny, has been held to bail by Judge Davis in the sum of \$5,000.

WASHINGTON.

WASHINGTON, Nov. 24.—The Secretary of the Treasury announces that hereafter silver coin will be paid only in fractional parts of a dollar, instead of sums not exceeding \$5.

WASHINGTON, Nov. 22.—At a Cabinet meeting yesterday, the last of four hours and a half, official dispatches were submitted which confirmed the belief that there is no more reason to abandon the idea of attaining a just conclusion now than there was yesterday. The sensational tales now so rife have a temporary effect, but the facts remain as they were when we announced the receipt of official information that the Spanish Cabinet is unanimous in favor of a satisfactory and honorable settlement of the Virginian difficulty, but regard for the maintenance of the integrity of Spanish territory is essential. When it is understood that no new developments have occurred since this announcement was made, except those regarding obedience by Barriel of the commands of Castellar, the apology of Spain must be, if accepted, a favorable indication of the honest purpose of that Government to deal justly. It will, therefore, appear that the situation promises favorable if not peaceful results.

It is now almost certain that delays will occur to such an extent that the case will necessarily be presented to Congress in an incomplete condition. No dispatch has been received confirming the rumor of a second attempt to kill Gen. Sikes.

Work in the Charleston navy yard is progressing briskly.

FOREIGN NEWS.

MATAMORAS, Nov. 23.—Concession to construct a railway from the Rio Grande frontier to the City of Mexico, thence to the Pacific, has been granted to a company of Mexicans. This defeats both the Plum and Rosecranz projects, and leaves the matter in the hands of Mexicans, who will doubtless interest other parties in the enterprise, or dispose of their concession to the greatest advantage to themselves.

Disraeli made a speech at Glasgow last evening, in which he severely criticized the Government and predicted a great struggle in Europe between the spiritual and temporal powers. The steamer left Placentia for St. John on November 19th, and struck on a rock on the 20th. It was impossible to get the life-boats afloat on account of the heavy sea which was moving. Three boats were got away with 23 persons in them. The rest, 18 in all, were drowned.

The Trotting Race between Sam Purdy and St. James. Earthquake. The Hurricane Case. Stocks, etc.

SAN FRANCISCO, Nov. 22.—There was a large attendance at the Agricultural Park to-day to witness the trotting race between Sam Purdy and St. James. St. James took two heats, Sam Purdy took two heats, Sam Purdy second, St. James first, Sam Purdy second, St. James first, but it was given to Purdy on account of alleged foul driving. The fourth heat was won by St. James, 2:38, 2:39, 2:24, 2:24. On account of darkness the fifth heat was postponed until Monday. Much feeling was exhibited at the decision of the judges on the third heat, but the crowd finally acquiesced. Purdy's horse was his favorite in the pools at \$250 to \$175.

SAN FRANCISCO, Nov. 24.—Michael Sheehan and Mrs. Borizan, his mistress, got into a fight to-night, in the course of which Sheehan received a dangerous wound in the head from some weapon in the hands of the woman. She was sent to jail and he was taken to the hospital.

St. James won the postponed heat in the match with Sam Purdy this afternoon at Agricultural Park. Time 3:28. St. James broke badly in the first half mile and ran about 200 yards, but the heat was given him, much to the dissatisfaction of many who had money on Purdy.

A dispatch from Salinas gives the substance of an interview with Mrs. Levin, the wife of one of the Vasquez gang of murderers, and who was the mistress of the chief Vasquez himself. The officers obtained her presence and testimony on the trial of her husband with great difficulty. Her statement does not add to the general stock of knowledge relative to the bloody Tres Pinos tragedy.

Particulars of an Attempt to Murder.

Not Guilty.—Gas.

SALINAS CITY, Nov. 22.—To-day, before Judge McCauley, Robert Masterson underwent an examination on a charge of assault with a deadly weapon with intent to kill. The evidence showed an attempt to kill H. J. Harmon. It seems that Harmon went to Masterson's house, and while Masterson was out attempting to rape or seduce the wife of Masterson. The courage and resistance of the woman broke him in his attempt, but he made her promise that she would not tell her husband. As soon as he came home, however, she told him what had occurred. He armed himself with a shot gun loaded with bird shot and went after Harmon, whom he found about 200 yards from the house, and fired both charges at him.

The case of the People vs. Pinos, for the murder of Pablo Hartwell, at New Republic, was submitted to the jury last night, and after being out one hour, returned a verdict of not guilty. The prisoner was then discharged.

CITY LYRICS—No. 1.
The Fair at last is over,
Our fun is laid aside;
And we have come back once again,
To home and family side.
We think of all the funny things
That have done and seen,
And after all we can but think
What jolly fools we've been!
We think upon the horses
That ran around so fast;
And then upon the drivers—
We cheered as they went past;
The equine ghost of Longfellow
Comes stalking in our dreams,
And mars the pleasure of our thoughts
Upon the Fairy scenes.
We thought to see it shown us,
How agriculture thrives
In Southern California,
The land of happy lives.
We thought to see the sons of toil
Rewarded for their care,
And recompensed for what they'd done
For the Southern District Fair.
But we saw a pair of pumpkins,
An ear of two of corn,
And the Starry Secretary,
A-footing of his horn;
A peck or two of oranges,
A vase or two of glass,
A gross or two of pin-cushions,
And the secretary's brass.
Work worth a hundred dollars—
Reward a power medal!
Ten dollars for a license,
With which one wouldn't meddle;
Diplomas worth a dollar
For a yard or two of floss,
And seven hundred dollars
For the latest trotting horse!
The Fair at last is over,
And with such a grand success,
May the City of the Angels
Never again be blessed!
For it would drive us crazy
With pleasure and with pain,
Hap'n a gorgeous vision
We'd see should see again! D. A. G.

PROSPECTUS
—OF—
THE LOS ANGELES HERALD.
The first of October, THE LOS ANGELES HERALD, a daily and weekly newspaper, will make its appearance. The Daily will be a neat and tastily printed seven-column newspaper, newsworthy rather than literary in character. The Weekly will be a six-column, eight-page paper, and will contain the most important matter that has previously appeared in THE DAILY HERALD.
It is proposed that the HERALD shall be an unbiassed advocate of every interest pertaining to Southern California and Arizona, and a zealous worker in all things that tend to benefit the State. In a word it will be a commonwealth with the People. In its columns, from time to time will be found matters of interest to the California Farmer, Mechanic, Merchant, Laborer, and all classes of Producers; and it will also contain reading matter suited to the Home Circle.
The HERALD will be an independent Democratic Journal and its efforts directed to sweep from power and place those now mismanaging the affairs of the Nation. For the accomplishment of this end, it will hail with satisfaction the co-operation of the members of all Parties, believing that the prosperity, perhaps safety, of the Nation depends upon the success of a movement of this character. It is "reform now or revolution hereafter."
The HERALD will advocate State Rights and oppose Centralization; it will encourage White and oppose Colored Immigration. It will favor Free Trade and oppose Protective Tariff; it will advocate a Greenback Currency for California, and oppose the present hoarding and hoarding policy which upholds the present ruinous rates of interest and shuts out Eastern capital. It will advocate the People and oppose Monopolies, no matter what guise they may assume.
While the HERALD will treat Slavery as a dead issue, it will earnestly advocate the right of every State to be Northern or Southern—Massachusetts or South Carolina—to govern itself in accordance with the wishes of its people, and the dictates of the Federal Constitution, without national interference.
The HERALD will oppose thieving and speculation. No man rightly owns a dollar until he earns it. Every dollar which is taken from the public treasury or private purse without a just return is robbery, and he who takes this money is a thief. Believing this, the HERALD will oppose salary steals, custom steals, land steals, railroad steals, and every kind of steal.
Each day, the fullest Foreign and Domestic Telegrams will be published. The aim will be to supply, in this part of the State, the demand heretofore fully by the San Francisco dailies. No trouble or expense will be spared to make the HERALD, in this respect, equal to any newspaper on the Coast. It will also contain a full Review of the Local and Foreign Markets, and the Trades generally, honestly and carefully compiled.

Important to Winemakers
THE UNDERSIGNED BEG TO
inform producers of wine that they can
place at their disposal a machine, patented
March 11, 1874, for
Heating Wines,
by which means the life of heaves and all
acidity is destroyed, and the wines preserved
without future change. The process at once
makes it like a THREE-YEAR OLD WINE, and
destroys the germs of fermentation.
